

Dear <FirstName>,

Take our **security challenge and help see if your network is ready to take on tough challenges**

Extreme Networks® solutions provide meaningful insight and unprecedented control of the network—allowing immediate identification of potential threats and the ability to quickly and easily isolate then eliminate anomalous behavior.

We have security always in mind

Our simplified, network-wide and cost-effective security includes:

- Network admission security, “pre-connect”
- Post-admission network security, “post-connect”
- Integrated and coordinated action, enabling true “close-loop NAC”

Unlike traditional security systems, our solutions are easy to install, easy to use and easily integrated. This translates into less complexity, allowing your valuable IT resources to focus on additional high-value projects.

Get the Advantage of Knowledge!

Request your **Free** copy of Extreme Networks Hazardous Endpoints—Protecting Your Network From Its Own Devices White Paper by registering at:

<http://www.extremenetworks.com/go/security5.htm>

And, if you have a project with funding, meet with an Extreme Networks Sales Representative and receive a **\$50 gift card!**

Terms and conditions: Must have a current, networking project with funding. This promotion is valid from January 2, 2007 to June 30, 2007. Request to participate in the promotion must be accepted in writing by Extreme Networks by June 30, 2007 in order to be eligible. Meetings must be scheduled and completed by December 31, 2007.

- Meetings must include the following people: technical decision-maker for the project and the business decision-maker for the project.
- Be registered with Extreme Networks via the registration form located at <http://www.extremenetworks.com/go/security5.htm>. All information on the registration form must be completed in order for the meeting to qualify.
- Be scheduled for a time acceptable to Extreme Networks and must occur prior to the end date of this promotion. Extreme Networks must confirm all meeting dates and times in writing on or before June 30, 2007 to qualify.
- Occur at or within 60 miles of an Extreme Networks location.
- Only one meeting will be scheduled per customer. If more than one person from a customer attempts to schedule a meeting with Extreme Networks, the meeting will be scheduled with the person who first requested the meeting.

*Additional Terms and Conditions may apply. See the web registration page for specific program details.
